## Important Updates to SWPH COVID-19 Vaccination Clinics

With more than 80% of eligible residents vaccinated with at least one dose against COVID-19, Southwestern Public Health is scaling back operations at its mass immunization clinics in St. Thomas, Woodstock, and Tillsonburg.

These milestones signify the COVID-19 vaccination campaign's success as such large clinics are no longer required, particularly as the Ministry ramps up a more traditional vaccination model with support from pharmacies and primary care providers this fall.

- **St. Thomas Updates:**
  - Scaled back in size and moving to Southwestern Public Health's 1230 Talbot Street Location.
  - The Talbot Street site will provide first and second doses and support on-going vaccination efforts related to the COVID-19 pandemic.
  - Appointments will be available through [www.covidvaccineLM.ca](http://www.covidvaccineLM.ca) or by calling 1-800-922-0096 ext. 9. Walk-ins welcome.
  - Any vaccination appointments for September or October that remain at Memorial Arena will be rescheduled to the Talbot Street site. Those individuals will receive a text, phone call, or email from public health.
  - Memorial Arena to administer its final vaccine doses on Friday, September 10; 1230 Talbot Street to open the morning of Monday, September 13.
  - As of Monday, September 13, hours of operation will be Monday to Friday, 9 a.m. to noon, and 1 to 4 p.m.
- **Woodstock Updates:**
  - Scaled back in size, with services remaining at the Goff Hall site.
  - As of Monday, September 13, hours of operation will be Monday to Friday, 9 a.m. to noon, and 1 to 4 p.m.
- **Tillsonburg Updates:**
  - As announced in early August, the Tillsonburg clinic will close on August 27.
  - Any remaining vaccination appointments for September or October at the Tillsonburg clinic will be cancelled and rescheduled. Those individuals will receive a text, phone call, or email from public health.

The success of this region's COVID-19 vaccination efforts is owed to many individuals and organization outside of public health, including primary care, pharmacies, paramedic services, volunteers, and service clubs. We are appreciative of the ongoing collaboration across the health system to service those who reside our communities.

Thank you for your support.

Sincerely,

**Dr. Joyce Lock**
