

Feeling Wonderful in the Winter

- 1** Actively screen everyone, every day. Before work, school, sport, and socializing.
- 2** Don't delay. Even if fully vaccinated, isolate immediately if you have COVID symptoms.
- 3** Stay connected. Send cards, drop gifts on porches, make phone calls and meet friends & family virtually.
- 4** Keep hand sanitizer and soap on hand. Hand hygiene is always in season.
- 5** If in doubt, wear the mask.
