

## Multiple Housing Cohorting Plan

Farm Name:

Owner/Operator:

Phone number:

Components of operation (*check all that apply*):

Greenhouse

Field work

Pack barn

Other (*please explain*):

---

---

*Complete per housing unit*

| Address of Bunkhouse | Number of workers |
|----------------------|-------------------|
|                      |                   |
|                      |                   |
|                      |                   |

Will you be receiving transfers from other jurisdictions? Y/N

If yes, when? (approximately): \_\_\_\_\_ Number of workers: \_\_\_\_\_

Do you have TFWs who are shift supervisors? Y/N

Do you employ local workers who are not living in the bunkhouses? Y/N

|  |  |
|--|--|
| <p><b>Please describe how cohorting will occur at your facility</b></p> <p><i>Attempts should be made to have all who live together work together (situations such as those being in a supervisory role may require alternate arrangements. If in a different cohort, supervisors should only supervise one cohort).</i></p> <p><i>Considerations</i></p> <ul style="list-style-type: none"> <li>• <i>Those who live together work together</i></li> <li>• <i>Staggering breaks/ lunch to accommodate physical distancing</i></li> <li>• <i>Eg: separation through different work areas, different shifts</i></li> </ul> |  |
|--|--|

|   |  |
|---|--|
| <b>Describe the training/ education being provided to workers regarding cohorting</b> |  |
|---|--|

Notes:

- Any time 2m distancing cannot be maintained face coverings must be worn, subject to exemptions
- Local workers not living in housing must maintain 2m distance from TFWs or wear appropriate face coverings
