

You have symptoms and are concerned you may have COVID-19. Now what?

Note: Symptoms should not be related to any other known causes or conditions. See the [COVID-19 Reference Document for Symptoms](#) for more information.

**For 10 days after symptom onset (or 20 days for immunocompromised individuals): maintain masking in public setting, do not visit or work in any highest risk setting, do not visit vulnerable individuals (e.g. immunocompromised individuals or seniors).

You've been identified as a close contact of someone who has tested positive for COVID-19 or someone with COVID-19 symptoms. Now what?

Wear a well-fitted mask in public, physical distance and maintain other public health measures for 10 days following your last exposure if leaving home. You should **NOT visit or attend work in any highest risk settings and not visit individuals who may be at higher risk of illness (i.e. seniors or immunocompromised) for 10 days after your last exposure.
