## IMPORTANT OPERATIONAL REQUIREMENTS AND ALLOWANCES

- Any washrooms, change rooms, locker rooms, showers or other similar amenities made available to the public must be cleaned and disinfected frequently. Please see our Guidance for Public Washrooms.
- Prolonged or deliberate contact while playing sports is not permitted.
- Amateur or recreational sport leagues may resume so long as they do not allow prolonged or deliberate physical contact between players. Soccer, baseball, tennis and other leagues may resume under this principle of no prolonged or deliberate contact.
- Leagues must contain no more than 50 participants. If the league contains more than 50 participants, it can be broken down into smaller groups. Players are not yet permitted to play against other players outside their league or group.
- Sporting and racing events are subject to outdoor gathering limits of 100. Specifically, spectators of sporting events including professional sports, will be subject to gathering limits and physical distancing measures, with assigned seating where possible. Therefore, outdoor sporting tournaments such as a baseball or soccer tournament would be considered a sporting event and should not exceed more than 100 spectators in total.
- Encourage staggered start times for games at recreational facilities to prevent large crowds from congregating.
- When inside all enclosed public spaces, including public washrooms, change rooms, and locker rooms, a face covering is required (unless an exemption applies). Read the full Letter of Instruction regarding face coverings [here](#). [Signage](#) must be posted at entrances to any enclosed public space indicating face masks are required.
