

Vaccine Name

Diluent

Method

Volume

Documentation Total Reconstituted Vaccine Volume

Varivax III
Merck Frost

Use only diluent (sterile water) supplied by Merck Frosst

- Withdraw **entire volume** of diluent (**0.7 ml**) into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV

Menjugate
Novartis

Use only diluent (aluminum hydroxide) supplied by Novartis

- **Withdraw 0.6 ml** of diluent into syringe
- Inject diluent into Menjugate vial.
- Agitate gently until dissolved

Withdraw **0.5 ml reconstituted vaccine**

Inject 0.5 ml **reconstituted vaccine RV**

Priorix
GlaxoSmithKline (GSK)

Use only diluent supplied (sterile water) by GSK

- Withdraw **entire contents of diluent** from ampoule into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV

MMR II
Merck Frosst

Use only diluent (sterile water) supplied by Merck Frosst

- Withdraw **entire contents of diluent (0.7 ml)** into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV

Priorix-Tetra
GlaxoSmithKline (GSK)

Use only diluent supplied (sterile water) by GSK

- Withdraw **entire contents of diluent** from ampoule into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV

Varilrix
GlaxoSmithKline (GSK)

Use only diluent supplied (sterile water) by GSK

- Withdraw **entire contents of diluent** from ampoule into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV

Act Hib
Sanofi Pasteur

Use only diluent (0.4% Sodium Chloride) supplied with lyophilized powder

- Withdraw **entire contents of diluent** into syringe
- Inject diluent into lyophilized powder
- Agitate gently until dissolved

Withdraw **entire reconstituted contents of vial**

Inject **total reconstituted vaccine volume**
TRVV
